

# Feeder Battery Installation Instructions

---

Safety Note: Ensure the feeder is powered off before starting installation or replacement.

## Purpose

This guide provides a clear, step-by-step process to install a battery into your new MB Ranch King Feeder or replace an old battery.

## Step 1 – Install or Replace the Battery

- • Open the feeder's lid.
- • Locate the timer panel under the lid and open it.
- • If replacing, remove the old battery and disconnect the red and black cables.

Figure: Step 1 Visual

## Step 2 – Attach Cables to the Battery

- Position the battery so its tabs are on the left-hand side.
- Attach the cables: red (+) to the positive tab and black (-) to the negative tab.

Figure: Step 2 Visual

## Step 3 – Insert the Battery into the Panel

- Insert the battery into the bottom section of the opened panel with tabs facing inward (not toward the opening).

Figure: Step 3 Visual

## Step 4 – Close the Panel

- Close the panel and the lid. Your feeder is now ready to start.
